5. Key Findings and Recommendations

Strengths: Component richness exceeds industry (19 > DoorDash 12-14). 3-theme system is unique. Full page flow coverage. Card quality award-competitive.

Gaps: Dark announcement undefined bug. No search. No real-time map. No AI personalization. No micro-animations.

Priority Fixes:

P0: Fix Dark undefined bug (<1hr)

P1: Search bar + autocomplete (1-2 days)

P1: Micro-animation polish (2-3 days)

P2: Fly-to-cart animation (1 day)

P2: Interactive tracking map (1-2 days)

P3: AI personalization placeholders (1 day)

6. Score 9+ Roadmap Per Dimension

Dimension	Current	Changes	Effort
Interaction Feedback	7.0	Button ripple, cart bounce, skeleton shimmer, page transitions, pressed states	1-2 hrs
Empty States	7.0-8.0	SVG illustrations per theme, search empty state, rewards onboarding	2-3 hrs
Navigation Clarity	7.5-8.0	Animated sliding nav pill, Modern active state boost, breadcrumb content	1-5 hrs
Typography System	7.5-8.0	5-step type scale, Dark weight contrast (900/300), section header utility	1-2 hrs
Color Consistency	7.5-9.0	Fix Dark undefined bug, glass opacity tiers, Modern 2-accent unify	1 hr
Visual Hierarchy	8.0-8.5	Hero 60% viewport, 24px section spacing	1 hr
Content Density	7.5-8.5	Price strikethroughs, ratings on all cards, smart truncation	1-2 hrs
Image Treatment	8.0-8.5	Blur-up lazy load, aspect ratio locks (16:9, 1:1, 4:3)	1-2 hrs
Flow Completeness	8.0-9.0	Search page, Modern inner page audit	2-3 hrs

Total effort: ~15-20 hours to reach 9.0+ average.
